Career Summary

A multilingual final-year B.Tech CSE student at Siksha 'O' Anusandhan with a strong foundation in backend engineering, focused on building scalable and high-performance systems. Experienced in REST APIs, Redis caching, and low-latency backend services, with growing expertise in backend architecture, cloud fundamentals, and AI/ML.

Education

Institute of Technical Education and Research, SOA University, B.Tech in Computer Science	Nov 2022 - Present
• CGPA: 8.88/10	
Ravenshaw Higher Secondary School, CHSE	Apr 2019 - Apr 2021
• Percentage: 94.5	
St. Xavier High School, CBSE	Mar 2018 - Apr 2019
• Percentage: 91.4	

Skills

Programming Languages: Java, JavaScript, Python, C

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Multithreading

Frameworks & Tools: Node.js, Express.js, React, REST APIs, GraphQL, Docker, AWS, Postman, Git, GitHub, JUnit 5

Databases & Messaging: MySQL, MongoDB, Redis

Soft Skills: Problem-solving, adaptability, communication, teamwork, time management, leadership, initiative, accountability.

Projects

Indo Ustav HTML, CSS, JavaScript, React, Express, Node.js, MongoDB	Indo Ustav
• Built a responsive website to showcase India's lesser-known festivals.	
• Optimized React rendering, reducing page load time by 25%.	
• Implemented Express.js + MongoDB backend handling 100+ entries with <200ms response time.	
viewI MERN Stack (MongoDB, Express.js, React.js, Node.js), JWT, Cloudinary	viewI
• Built a full-stack video-sharing platform with an interactive and responsive UI using the MERN stack.	
• Implemented secure JWT-based authentication and optimized API response times to under 300ms.	
• Integrated Cloudinary for efficient video upload, storage and playback.	
EthGroww React, JavaScript, Node.js, Express.js, MongoDB, Solidity, web3.js, Redis	EthGroww
• Designed the backend for a blockchain-based microloan platform, enabling secure transactions and system scalability.	
• Ensured transaction transparency and security with Solidity and web3.js, improving trust by 30%.	
• Developed 5+ APIs with Express.js, connecting the React frontend to Ethereum, boosting efficiency by 25%.	

Certifications

Meta: Programming with JavaScript	Jul 2024
Meta: Introduction to Front-End Development	Mar 2024

Extracurricular Activities

Nirman 4.0 – Backend Developer	Feb 2025
• Developed a blockchain-based microloan platform, reducing loan approval time by 20%.	
Hacktoberfest 2023 & 2024 – Open Source Contributor	Oct 2024
• Optimized API response times by 20%, fixed 3+ bugs, enhanced caching, and boosted project engagement by 25%.	
Smart India Hackathon 2024 – Backend Developer	Aug 2024
• Ranked in the top 30 out of 90+ teams in HackerWar 5.0 (Internal Round).	
E-Summit 2024 – Frontend Developer	Apr 2024
• Created a website promoting eco-tourism, achieving a 25% increase in user sign-ups.	
LeetCode	
• Solved 250+ problems on LeetCode (1517).
